

May 2017 Residential Messaging from SDG&E®

Article 1: Seasonal reminder

Electricity rates switch annually from winter to summer pricing on May 1. This may affect your bill since summer rates are often higher than winter rates. If your pricing plan is based on time of use, remember that summer peak hours start on May 1 as well. Learn more at sdge.com/my-energy-bill.

Keep track of your energy use and costs with email or text alerts. These alerts give you information about your account, bill, energy use, and more. Some types of alerts include:

- ✓ Your pre-set spending goal was exceeded
- ✓ You've moved into a higher-priced electric tier
- ✓ A weekly energy use summary with all of this information plus energy saving tips

For more information or to sign up for alerts, visit sdge.com/alerts.

Article 2: Comfort you can count on

Is your heating and A/C system getting quality care? Pay only \$50 to receive a System Assessment and Improvement (\$300 value) visit, after a \$250 rebate from SDG&E. A qualifying contractor will thoroughly inspect your system and equipment, change the air filter, and clean the condenser coil. The contractor will provide you with a detailed report showing any additional maintenance or repairs you may need – along with more rebates to offset the costs. Find out if you qualify by calling A/C Quality Care at 800.289.2440 or visiting www.acqualitycare.com.

Article 3: Want a more predictable energy bill?

Your energy use changes and so does your bill, depending on such things as the weather and the way you use your appliances. SDG&E's no-cost Level Pay Plan allows you to balance the highs and lows so your monthly energy bill is more stable. When you know what to expect, it's easier to plan your budget. Learn more at sdge.com/LPP.

Article 4: EcoChoiceSM is a cool choice

SDG&E's EcoChoice program gives customers the option to purchase up to 100% clean, renewable energy. The program may be a good option for those who rent or don't have the ability to adopt solar due to costs or the inability to put panels on their rooftop. With EcoChoice, there's no upfront installation cost and you're supporting clean, renewable energy in our community. Those who enroll will pay a small premium every month depending on their subscription level. Customers can visit our [online calculator](#) to estimate how much it will cost each month to purchase renewable energy through the program. Customers can also enroll online. For more information, visit sdge.com/ecochoice.
